

Look to Us for All of Your International Angling Travels

Although we've specialized in peacock bass fishing in South America for over 20 years, we have sent anglers on fishing adventures throughout the globe to a variety of destinations for just about every major sportfish. From A to Z (salmon in Alaska, to tigerfish in Zambia), we've obtained first-hand expertise to many exciting fishing destinations throughout the world. If there is a specific location you'd like to visit, or a species you'd like to catch, please contact us and allow us to customize a trip for you just as we do for our peacock bass anglers. From trophy largemouth bass in Mexico to sailfish in Costa Rica, we have the connections to put together an unforgettable fishing adventure.

Gary Laden (seen at left), managing director of Peacock Bass Adventures is seen on the Zambezi River in Africa fishing for tigerfish. Let Peacock Bass Adventures fulfill your angling travel needs far beyond the Amazon.

We are proud of the fact that we've provided the travel destinations and logistical arrangements for Flip Pallot and his former ESPN high rated fishing series – The Walker's Cay Chronicles – for several years. We handled the angling travel arrangements for Flip and his film crew to destinations such as Guatemala, Argentina, Mexico, Belize and Alaska. We would welcome the opportunity to handle your angling travel needs beyond South America as well.

For several years, we handled the angling travel logistical arrangements for the extremely popular angling legend Flip Pallot (seen at left) and his ESPN Walker's Cay Chronicles film crew.
